

Japan Quality

Better performance for better driving

Developed by AUTOBACS with over 45 years automotive industry experience and made in Japan at certified factories. Let AUTOBACS engine oils enrich your driving experience with the spirit of Japanese quality and reliability.

Engine OIL

5W-30 SN/CF/GF-5

Premium synthetic engine oil featuring the API license & ILSAC certification. Maximum engine protection while maximizing fuel economy. Recommended for both gasoline and diesel engines including turbocharged vehicles.

Oil type	Synthetic oil
Pour point (°C)	-35.0
Flash point (°C)	230
Viscosity index	163
Kinematic viscosity (mm ² /s)	40°C 62.31
	100°C 10.71

5W-40 SN/CF

Premium API licensed synthetic engine oil formulated to protect your engine in extreme temperature and high load applications. Recommended for both gasoline and diesel engines including turbocharged vehicles.

Oil type	Synthetic oil
Pour point (°C)	-35.0
Flash point (°C)	234
Viscosity index	170
Kinematic viscosity (mm ² /s)	40°C 93.18
	100°C 15.05

0W-16 SN

Premium API licensed fully synthetic engine oil specifically formulated for select next generation fuel efficient engines. Recommended for gasoline engines including hybrid and idling stop vehicles where 0W-16 is specified.

Oil type	Synthetic oil
Pour point (°C)	-37.5
Flash point (°C)	228
Viscosity index	165
Kinematic viscosity (mm ² /s)	40°C 36.42
	100°C 7.12

0W-20 SN/GF-5

Premium fully synthetic engine oil featuring the API license & ILSAC certification. This low viscosity oil optimizes fuel economy for today's high efficiency engines. Recommended for gasoline engines including hybrid and idling stop vehicles.

Oil type	Synthetic oil
Pour point (°C)	-40.0
Flash point (°C)	226
Viscosity index	170
Kinematic viscosity (mm ² /s)	40°C 45.27
	100°C 8.57

0W-30 SN/GF-5

Premium fully synthetic engine oil featuring the API license & ILSAC certification. Made with Polyalphaolefin (PAO) for superior cold-start protection and high temperature resistance. Suitable for gasoline engines including hybrid and idling stop vehicles where either 0W-30 or 0W-20 is specified.

Oil type	Synthetic oil
Pour point (°C)	-45.0
Flash point (°C)	234
Viscosity index	177
Kinematic viscosity (mm ² /s)	40°C 58.25
	100°C 10.69

Transmission Fluid

ATF UNI

AUTOBACS fully synthetic ATF for the latest automatic transmissions. This low friction formula provides smooth shifting even when cold and superior protection over wide temperature ranges. Recommended for multi-stage automatic transmissions equipped with a torque converter.

Oil type	Synthetic oil
Pour point (°C)	-50.0
Flash point (°C)	208
Viscosity index	168
Kinematic viscosity (mm ² /s)	40°C 35.15
	100°C 7.07

CVTF

AUTOBACS fully synthetic transmission fluid for the latest Continuously Variable Transmissions (CVTs). This transmission fluid is formulated from synthetic base oils combined with high performance additives to maximize torque delivery and maintain optimum viscosity over a wide range of temperatures.

Oil type	Synthetic oil
Pour point (°C)	-50.0
Flash point (°C)	198
Viscosity index	178
Kinematic viscosity (mm ² /s)	40°C 33.55
	100°C 7.03

For All Roads

We support everything about Cars

すべてのカーライフを支えたい。

AUTOBACS was founded in 1974 as Japan's first one-stop automotive specialty store. Our reputation for reliable products and services continues to support the driving experience with our vision "Anything about cars, you find at AUTOBACS".

オートバックスは、日本初のカー用品総合専門店として1974年に創業しました。以来、「クルマのことならオートバックス」をスローガンに、高い信頼性を誇る製品やサービスで、あらゆるカーライフを支えています。

AUTOBACS Brand

AUTOBACS engine oil products offer true Japanese quality developed from over 45 years of vehicle servicing and motor sports experience. AUTOBACS engine oils provides peace of mind that your engine will have the best protection possible.

New Line-up

Introducing the new range of AUTOBACS engine oils to meet the needs of our customers. The all new selection includes a high performance fully synthetic racing oil, ACEA compliant fully synthetic engine oils for European cars and a range of semi-synthetic engine oils.

New

ARTA Premium Racing

New

AUTOBACS RACING TEAM AGURI (ARTA) fully synthetic racing oil captures the DNA of Japan's top level Super GT Series. ARTA Premium Racing Oil maintains powerful oil film retention under the most demanding high temperature / high load conditions. Recommended for high performance cars for track use and spirited street driving.

AUTOBACS Euro Spec

New

AUTOBACS Euro Spec is a fully synthetic engine oil specifically formulated to meet the strict requirements of European car manufacturers. This all new range of fully synthetic oil is ACEA compliant with approval codes for European makes and models.

AUTOBACS Fully Synthetic

AUTOBACS range of fully synthetic engine oils are the benchmark for protection and performance. Formulated for superior fuel efficiency and a cleaner engine. AUTOBACS fully synthetic is recommended for Japanese cars as well as other makes and models.

AUTOBACS Semi Synthetic

New

Maximum protection at an affordable price. AUTOBACS semi-synthetic oil provides optimum cost performance for general use and daily drivers.

EVERSTRON Conventional

Coming Soon

The Everstron range of conventional engine oils deliver excellent performance at a budget price. This carefully formulated mineral oil is suitable for general use motoring while providing a high level of protection.

Product Selection

With ARTA Premium Racing Oil as its flagship engine oil product, AUTOBACS offers a wide range of Japanese quality oils to meet the needs of all customers.
